- Goldfields-Esperance
- Great Southern
- Kimberley
- Metropolitan
- Mid-West

- Monitoring and reporting on the effectiveness of applying funds to Local Government roads in its region.

Main Roads Western Australia provides technical and administrative support to Regional Road Groups.

See Annexure 1 for Terms of Reference for a Regional Road Group and Annexure 5 for the profile of the Pilbara Regional Road Group.

## 2.0 Regional Road Sub-Groups or Technical Groups

### Regional Road Sub Group

A Regional Road Group may establish a Regional Road Sub Group(s) to:

- Assist to identify road-funding priorities.
- Consider local road issues to inform decision making by the Regional Road Group.
- Provide advice to the Regional Road Group.

A Local Government may apply to the Regional Road Group to transfer from one Technical Group to another.

## **3.0 State Road Funds to Local Government Agreement**

The State Road Funds to Local Government Agreement (the Agreement) is a formal agreement between State and Local Government in Western Australia.

The Agreement is *intended to ensure that the funds available from State Government sources for local roads are allocated across the State of Western Australia, focusing on areas of strategic importance and areas that will provide maximum benefit. The needs of all road users and the Western Australian community will be considered during the distribution process.* (State Road Funds to Local Government Agreement, Guiding Principles, page 2)

The current Agreement expires in 2022/2023 and states, “On an annual basis, the share of State road funds to be allocated on Local Government roads will be equivalent of the State Budget estimated motor vehicle licence fees for that year.” (State Road Funds to Local Government Agreement, Funding sources, page 3)

The Agreement recognises and determines the membership of:

- State Road Funds to Local Government Advisory Committee
- Regional Road Groups
- Regional Road Sub Groups (if considered necessary)

Under the Agreement the available funding is split into two categories:

1. Local Government Managed Programs (Category 1)
2. Main Roads Western Australia Managed Programs (Category 2)

The Agreement (page 3) is projected to produce annual allocations from State road funds to Local Government roads for the years 2018/19 to 2022/23 as per the following schedule:

2018/19	2019/20	2020/21	2021/22	2022/23
\$182.3 million	\$188.9 million	\$193.4 million	\$198.4 million	\$203.4 million

The revenue is to be distributed to Local Government roads on the basis of<sup>1</sup>:

#### **Local Government Managed Programs**

##### **(Category 1): 66%**

- Direct Grants
- Road Project Grants
- State Black Spot
- Strategic and Technical Support

#### **Main Roads Western Australian Managed Programs**

##### **(Category 2): 34%**

- State Initiatives on Local Roads
- Traffic Management, Signs and Pavement Markings
- Bridgeworks and Inspections
- Remote Aboriginal Access Roads
- Regional Road Group Support

The allocation to the categories and sub categories will move in line with the total Agreement pool or as otherwise approved by the State Road Funds to Local Government Advisory Committee. (State Road Funds to Local Government Agreement, page 4)

## **4.0 State Road Funds to Local Government Advisory Committee**

The Agreement stipulates the State Road Funds to Local Government Advisory Committee (SAC) will oversee, monitor and recommend to the Minister for Transport the distribution of State funds to Local Government roads.

The SAC sets and is responsible for the procedures covering the administration and functioning of the Agreement.

### **Membership**

The SAC consists of:

- Managing Director of Main Roads Western Australia.
- Chief Executive Officer of the Western Australian Local Government Association (or their nominee).
- Four elected State Councillors as nominated by the Western Australian Local Government Association.
- Four Main Roads Western Australia senior officers nominated by the Managing Director of Main Roads.

The Managing Director of Main Roads Western Australia chairs the SAC.

<sup>1</sup> See Annexure 2: Road Funding Sources, and Annexure 3: Indicative timetable for Funding Submissions.

## Responsibilities

The responsibilities of SAC include:

- Recommending the annual local roads program to the Managing Director, Main Roads WA (for consideration by the Minister for Transport).
- Monitoring the delivery and acquittal of funded programs/projects.
- Redistributing funds between projects, programs and Regional Road Groups if required to suit delivery progress/schedules.
- Reviewing individual Regional Road Group procedures.
- Set procedures covering the administration and functioning of the Agreement.
- Responding to transport issues received from Regional Road Groups, Local Government and Main Roads WA.
- Deciding and approving changes to relevant policies and processed affecting the Agreement.
- Responding to transport issues received from Regional Road Groups, Local Government and MRWA.

The SAC meets four times each year and meeting agendas/minutes are on the WALGA website: <http://walga.asn.au/Policy-Advice-and-Advocacy/Infrastructure/Funding.aspx>

## 5.0 Pilbara Regional Road Group Road Project Prioritisation Guidelines

The Pilbara Regional Road Group has a document titled “Pilbara Regional Road Group Road Project Prioritisation Guidelines”. The guidelines include information on:

- Structure and process for the Group
- Work classifications, preservation scores and a multicriteria table
- Multicriteria Assessment Model containing the criteria (1) Environment, (2) Level of Service, (3) Social, and (4) Economic

The Main Roads WA Pilbara Regional Office can provide a copy of the guidelines.

## 6.0 Regional Strategies for Significant Local Government Roads

Each Regional Road Group has a document known as *Regional Strategies for Significant Local Government Roads*. The document provides a strategic view of regionally significant Local Government roads and the development strategies for those roads. The current version of the document is *Roads 2030* and under development is *Roads 2040*.

A Memorandum of Understanding between the State Government and WALGA requires that Regional Road Groups review their road development strategies at five yearly intervals to assess the effects of changing circumstances and demand on the local road network.

Local Governments (via Regional Road Groups) work collaboratively to review their local road network to produce an agreed strategic approach to allocate limited funding across the extensive local road network in WA.

It is important to note that only projects on local roads included in the current version of *Regional Strategies for Significant Local Government Roads* are eligible for Road Project Grant funding under the current State Roads Funds to Local Government Agreement.

See Annexure 2 for a breakdown of State Government and Federal Government funding sources for Local Government roads.

The SAC must endorse any amendment to a Regional Road Group's *Regional Strategies for Significant Local Government Roads* document. If a Regional Road Group seeks an amendment for a road crossing into an adjoining region, SAC requires evidence of agreement with the adjoining Regional Road Group.

Access the current version of *Regional Strategies for Significant Local Government Roads* for each Regional Road Group:

<http://walga.asn.au/Policy-Advice-and-Advocacy/Infrastructure/Roads/Roads-2030-Regional-Road-Development-Strategies.aspx>

## 7.0 Level One Bridge Inspections

Local Governments are responsible for bridges on local roads and must perform annual level-one inspections of bridges under their responsibility. Local Governments submit inspection reports to Main Roads WA. Demonstration of such inspections is critical for a Local Government to be eligible for funding from the Agreement to maintain or replace a bridge.

Main Roads WA performs other detailed technical inspections of bridges, known as level-two and level-three inspections, on behalf of and/or in consultation with Local Governments.

Main Roads WA will provide a list each year to every Regional Road Group to monitor annual level-one bridge inspections by member Local Governments. A Regional Road Group may discuss outstanding inspections and, if necessary, consult with Main Roads WA or WALGA to provide support.

To guide Local Governments in their responsibilities a *Level 1 Bridge Inspection Framework* is available on the WALGA website:

<https://walga.asn.au/getattachment/Policy-Advice-and-Advocacy/Infrastructure/Roads/Level-1-Bridge-Inspection-Framework-version1-2020-Final2.pdf?lang=en-AU>

## 8.0 Key Performance Indicators for Regional Road Groups

Part 7 of the Agreement relates to Key Performance Indicators (KPIs) for Regional Road Groups. Part 7 states, *Key Performance Indicators will focus on Expenditure Performance, asset management and road safety. KPIs have been established for monitoring purposes and no financial incentives or penalties will apply on the basis of performance against KPIs. Main Roads Western Australia and WALGA will prepare an annual KPI report for SAC. The report will be provided to the Regional Road Groups.*

### Expenditure performance

- 1.1 Number of Regional Road Group meetings held. Minimum two meetings per year.
- 1.2 Percentage of Black Spot Programs funding expended. (Includes State Government and Australian Government Black Spot Programs). Target 90%.
- 1.3 Percentage of road project grants expended (includes commodity route supplementary funds projects). Target 90%.

- 1.4 Road project grant applications submitted to SAC (via Main Roads WA) by November each year.

### Asset management

- 2.1 Percentage of sealed road length subject to a documented visual condition survey within the region in the previous 5 years. Target 50%.

### Road safety

- 3.1 Metropolitan Regional Road Group only - Percentage of road project grant funded road improvements subject to road safety audits. Target 100%
- 3.2 Other Regional Road Groups - Percentage of Road Project Grant funded projects that include Safe System improvements to roads and roadsides. Target 50%.

### Local road inventory data

- 4.1 Number of Local Governments by RRG that provide a road inventory data update to Main Roads WA for uploading into the IRIS database in the last three financial years. Target 100%.

Reporting on the KPIs commenced in 2012-2013. Annexure 4 is the KPI report for 2019/2020.

## 9.0 Restricted Access Vehicle (RAV) Network

The Restricted Access Vehicle (RAV) Network consists of ten levels of road network (i.e. RAV Network 1 to RAV Network 10) on which an approved category of restricted access (heavy) vehicle can be driven (i.e. category 1 restricted access vehicle to category 10 restricted access vehicle). Main Roads WA maintains an electronic list of all roads in the RAV Network.

A restricted access vehicle cannot travel on any road not listed in the RAV network - to do so is contrary to the law.

A higher category restricted access vehicle (e.g. a RAV 10) cannot be driven on a lower RAV rated road (e.g. a RAV 5 road); however, a lower category restricted access vehicle (e.g. a RAV 4) can be driven on a higher RAV rated road (e.g. a RAV 7 road).

Restricted Access Vehicles can only operate on a road (RAV route) approved by Main Roads WA. Vehicle operators may apply to Main Roads WA to add or amend a RAV route and it is the policy of Main Roads WA to refer applications to Local Governments for preliminary assessment.

To provide guidance to a Local Government when assessing an application to add or amend a road on the RAV network, WALGA developed a model policy known as "Policy for Assessing Applications to Operate Restricted Access Vehicles on Local Government Roads". Download the model policy from the WALGA website [here](#).

Main Roads WA maintains the following guidance documents for the RAV network:

1. Guidelines for Approving RAV Access  
<https://www.mainroads.wa.gov.au/globalassets/heavy-vehicles/rav-access/access-guideline-approving-rav-access.pdf>
2. Standard Restricted Access Vehicle (RAV) Route Assessment Guidelines  
<https://www.mainroads.wa.gov.au/globalassets/heavy-vehicles/rav-access/access-guide-standard-restricted-access-vehicle-rav-route-assessment-guidelines>

### As of right vehicles

An *as of right vehicle* is any vehicle not a restricted access vehicle, for example, rigid trucks and semi-trailers. These vehicles may operate state-wide provided they are:

- Not a road train or b-double;
- Within regulation axle mass limits;
- Less than nineteen (19) metres in combination length or less than 12.5 metres in length for rigid vehicles;
- Less than 42.5 tonnes in total combination mass;
- Less than 2.5 metres wide (excluding mirrors and lights); and
- Less than 4.3 metres high.

## 10.0 Accredited Mass Management Scheme (AMMS)

The Accredited Mass Management Scheme (AMMS) is a scheme allowing heavy vehicles to carry additional payload on an identified and limited part of the road network assessed as suitable by Main Roads WA.

AMMS allows for three concessional mass levels and allows for any product and use of any proven loading control method. Vehicles accredited under the AMMS can only carry additional mass.

Local Governments retain control over heavy vehicles using local roads. A transport operator applies to have local roads assessed for inclusion in the AMMS network. Main Roads WA seek the support of Local Government before assessing the suitability of a local road for inclusion in the AMMS network. At that time, Local Governments can seek to have relevant conditions applied to the use of a particular local road.

Once a road is approved for access, it is included on the AMMS network list of roads published on the AMMS page of the Main Roads WA website.

Similar to the RAV network, transport operators must comply with the particular conditions of the AMMS network on which they are operating.

Information about the AMMS is available on the Main Roads WA website:

<https://www.mainroads.wa.gov.au/globalassets/heavy-vehicles/getting-a-permit/amms/permits-information-sheet-accredited-mass-management-scheme-amms-information-sheet.pdf>

## 11.0 Informing Own Councils

Each Regional Road Group approves and recommends to the SAC a substantial amount of road funding on behalf of member Local Governments. It is useful that delegates to each Regional Road Group keep their own Councils informed of the business and decisions made by the Regional Road Group of which they are a member.

## 12.0 WALGA RoadWise

WALGA RoadWise aims to engage Local Governments and communities in actions that support and contribute to the implementation of *Driving Change*, Road Safety Strategy for Western Australia (2020-2030).

WALGA RoadWise supports Local Governments, community groups, local businesses and individuals to become involved in the community road safety network across WA.

A team of regional and metropolitan based RoadWise Road Safety Advisors assist members of the statewide community road safety network (that includes Local Governments) by:

- promoting participation and community ownership
- facilitating opportunities for leadership in local road safety
- supporting local road safety committees
- providing access to resources and training
- sharing information

These actions contribute to building the capacity of the network to make an effective contribution to preventing or reducing death or serious injury on the public road network in Western Australia.

The following funding sources are available to Local Governments for roads.

### **Direct Grants** (State Road Funds to Local Government Agreement)

Provided annually for routine maintenance of Local Government roads. The grants are allocated directly to a Local Government using the Asset Preservation Model formula provided by the Western Australia Local Government Grants Commission.

### **Road Project Grants** (State Road Funds to Local Government Agreement)

Provided annually and used for specific projects assessed and prioritised by a Regional Road Group. Funding may only be used on roads of regional significance for specific road improvements; and major preservation works such as resealing to maintain the road asset.

### **Commodity Routes** (State Road Funds to Local Government Agreement)

Provided annually (from the Road Project Grant allocation) for routes where there is a significant high priority transport task associated with the transport of a commodity such as grain, timber, agricultural lime, iron ore, etc. The funding is intended for roads requiring upgrade or maintenance to accommodate the commodity transport function.

### **Road and Bridge Condition Data Collection Fund** (State Road Funds to Local Government Agreement)

Provided annually (from the Road Project Grant allocation) for assessing the condition of regionally significant Local Government bituminous sealed roads as defined in each Regional Road Group's *Regional Strategies for Significant Local Government Roads*; and to assist Local Governments perform Level 1 bridge inspections on local roads.

### **State Black Spot Program** (State Government)

The Program targets improving the safety of roads with a proven crash history or high-risk location with the likelihood of crashes occurring identified by a road safety audit/inspection. Projects on local roads are funded by a joint contribution of two dollars from the State Government and a one-dollar contribution from the Local Government where the project resides.

### **State Initiatives on Local Roads** (State Road Funds to Local Government Agreement)

Provided annually for works that are generally larger in nature and fall outside the criteria of other funding groups, however are still of strategic importance to the State.

### **Bridge Works/Bridge Inspections** (State Road Funds to Local Government Agreement)

The Commonwealth provides Financial Assistance Grant funding to the Western Australian Local Government Grants Commission in the form of Untied Funds for Local Government. Some of this funding is set aside for major maintenance and replacement of bridges on Local Government roads. The State provides a matching contribution of \$1 for every \$2 provided under this arrangement.

### **Remote Aboriginal Community Access Roads** (State Road Funds to Local Government Agreement)

The Commonwealth provides Financial Assistance Grant funding to the Western Australian Local Government Grants Commission in the form of Untied Funds for Local Government. Some of this funding is set aside for access roads serving Aboriginal Communities. The State provides a matching contribution of \$1 for every \$2 provided under this arrangement.

**Australian Government Black Spot Program** (Australian Government)

The Program aims to reduce the social and economic costs of road trauma by treating locations with a record of casualty crashes or with the likelihood of crashes occurring identified by a road safety audit/inspection. The Australian Government fully funds projects on local roads under this program.

**Roads to Recovery** (Australian Government)

Funded by the Australian Government, the Roads to Recovery Program commenced in 2001 to address the significant amount of Local Government road infrastructure reaching the end of its economic life and its replacement was beyond the capacity of Local Governments. Roads to Recovery funds are paid directly to Local Governments for priority road projects chosen by Local Governments.
